

# Mobile Phone Policy

*Bulli High School has been mobile phone free since 2020*

All students will be able to have their headphones and phone\* in their school bag, on silent or off. They will not be able to use their phone during or between classes, or break periods throughout the school day. Students are required to put their phones in their bags prior to entering the school grounds.

Any students found to be using their phones or headphones during school times will have the phone confiscated and returned to them at the end of the school day. Continuous breaches will be dealt with under the school's discipline policy.

Students needing to contact parents during the school day and parents needing to contact their child can do so through the school office.

Use of mobile phones will be allowed when it forms part of a student's reasonable adjustment for learning and wellbeing, or a student is exempt.

Mobile phones are the responsibility of the student.

*\*or device with comparable functions.*
